June 25–27, 2017

Westin Buckhead Hotel

Atlanta, GA

**DISCOVER WHAT'S NEW IN
DEMENTIA & HOW BABY
BOOMERS & OTHERS ARE
DRIVING CHANGE!**

Baby boomers and younger generations of people living with dementia symptoms are changing the status quo. They are speaking out about the need to address stigma, better understanding about living with dementia, want to be fully included and heard in any matters that affect them, and need accommodations for their disability.

Re-Imagine Life with Dementia is bringing together the diverse dementia community for needed collective discussions and interactions, learning experiences and inspiring conversations. All will gain new insights, perspectives and actionable takeaways from this conference. You won't want to miss it!

Enjoy Atlanta in June!

Engage ♦ Empower ♦ Enable

ENGAGE with others who are changing attitudes and practices about LIVING with dementia that are life affirming, free of prejudice, and support full inclusion and accommodation.

EMPOWER others by sharing your knowledge, insights and resources.

ENABLE people living with dementia through supportive, relational-based practices and adaptive technology.

"I dream of the time when there is no stigma about having dementia. I dream of better education and understanding about dementia for care partners. Individuals with dementia can still do a lot of things. We need support to find our new purpose and develop strategies for living with our condition well."

~ Robert Bowles, a retired pharmacist living with Lewy Body dementia
